AMATEUR PLAY

STAGED JUNE 30TH

Miss Jessie Smith, Supported by Good Cast Will Play Rock of Ages.

Since June 9th, Jessie Smith and a cast of seven characters have been hard at work whipping into shape the drama "Rock of Ages," which will be staged at the Hetrick Monday evening, June 30th. Miss Smith is doing the coaching of the show after having taken some special work under Georgia Brown of Kansas City. The play is given under the auspices of the Ladies Benevolent society of Chanute and to the society the proceeds will go after the expense of production is settled.

Three acts of the four act drama are in good shape, so those who heard the rehearsals testify and the fourth act is now under way. The drama is one that deals to some extent with the White Slave movement and it is modern in the sense that it shows the distress of the girl on the market, that are bought and sold, faithless sweet hearts and indifference after marriage.

The following is the list of characters in the cast and most of them are known to the Chanute public, having appeared in amateur plays before. Quite a number of them are real favorites:

Westley Trask	Kenneth Goss
Newton Holcome	Harry Fols
Billy Bean	Clarence Emerson
Nemo	Raymond McKinstry
Bethel Martin	Jessie Smith
Hazel Willis	Letha Atkinson
Merette Dufranc	Nina Coats
Mrs. Harriet Holcome	Emma Lou Monninger.

WILL PURCHASE METER PROVER

The city has decided to purchase a meter prover. This move was decided upon when it became a settled fact that this year's supply of gas would necessarily have to come from scattered sources and that a number of new meters would have to be purchased. The city clerk was instructed to purchase one at a cost of not more than \$75. This amount is spent many times over by securing the services of a Joplin expert to do the proving, so that the commission decided that it would be a matter of real economy to purchase one for its own use. Local men will read them. J. C. Penny lately went to Joplin to take instructions in meter proving only a few days ago and there are several other men in town who are also qualified to do the work.

Driller Burned in Explosion

John McIntyre of Iola, employed as a driller at LeHunt, was terribly burned about the arms and throat in a gas explosion Thursday evening. It is said the accident was caused by the carelessness of a young fellow who was looking for a job at the rig. Despite a warning from McIntyre the chap lighted a cigarette in the vicinity of a leaking pipe. McIntyre will recover from his burns.

LIGHT RAINS

FALL IN KANSAS

Precipitation Scarcely Perceptible Here. Heavier to the North

This morning shortly before 2 o'clock tangible evidence of a precipitation of rainfall was to be seen and felt, just enough to be sure that the moist places on the sidewalks were caused by rain.

Reports from the north and western parts of the state give the rainfall as considerably heavier than here. Near Topeka the rain ranged from "light" to an inch, while an inch and a half is reported at Hays. Salina has had good rains and also towns near there. Atchison has had no rain although good showers fell in that vicinity.

Remember, we are making the price on all kinds of summer hardware, stoves, and best washer on earth, at Rankin's.
